## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

## DETAILED ACTION

This Office action is in response to applicant's amendment filed on 12 June 2003.

### ***Allowable Subject Matter***

1. Claims 1-5, 7-28, 30-32, 35-44 are allowed.
  
2. The following is an examiner's statement of reasons for allowance:
  - Claims 1-5, 7, 12-14 are allowed because the prior art of record does not teach or suggest a method of polishing a substrate having a conductive material formed thereon that includes a retaining ring contact pressure to membrane pressure of more than 1.1, combined with a ratio of carrier head rotational speed to platen rotational speed that ranges from 2:1 to 12:1, and in combination with the other claim limitations;
  - Claim 8, 35-39 are allowed because the prior art of record does not teach or suggest a method of polishing a substrate having a conductive material formed thereon that includes the step of accelerating the platen rotational speed and the carrier head rotational speed at a rate that ranges from 5 to 30 rpm's per second, in combination with the other claim limitations;

- Claims 9-11, 21-28, 30-32, 40-44 are allowed because the prior art of record does not teach or suggest a method of polishing a substrate having a conductive material formed thereon that includes a retaining ring contact pressure that has a ratio of retaining ring contact pressure to membrane pressure of more than 1.1, combined with a second polishing pressure that is less than a first polishing pressure and a second platen rotational speed that is less than a first platen rotational speed, and in combination with the other claim limitations; and
- Claims 15-20 are allowed because the prior art of record does not teach or suggest a method of polishing a substrate having a conductive material formed thereon that includes a retaining ring contact pressure that exceeds a membrane pressure by 0.4 psi and also has a ratio of retaining ring contact pressure to membrane pressure of more than 1.1, combined with a first linear relative velocity that is more than 600 mm per second and a second linear relative linear velocity that is less than 600 mm per second, and in combination with the other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
